

1635 Dundas Street East

Opening date announced

We have a few updates to share about 1635 Dundas Street East, located in Whitby. Christian Faith Outreach Centre (CFOC) has been announced as the service operator for 1635 Dundas Street East and together we welcomed the first occupants on March 20, 2024.

CFOC is committed to providing safe, supervised housing-first focused shelters and services for people experiencing homelessness and partnering with the community to end chronic homelessness in Durham Region.

Office spaces for employees of the Region and CFOC have been set-up and the building is now operational with staff on-site supporting our occupants.

Community Liaison Committee

The 1635 Dundas Community Liaison Committee (CLC) has been established. The Committee will share information; identify issues, concerns and mitigation strategies that will assist in the successful integration of this project, and its residents, into the broader community.

Meeting minutes will be posted on the Your Durham website after they are approved by the Community Liaison Committee. If community members would like to connect with the CLC please email CommunityLC@durham.ca

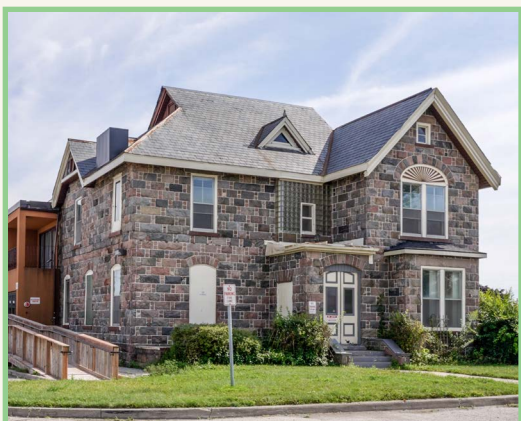

Contact information available:

or dial 311 extension 5510 for Homelessness and Housing

Safety and security

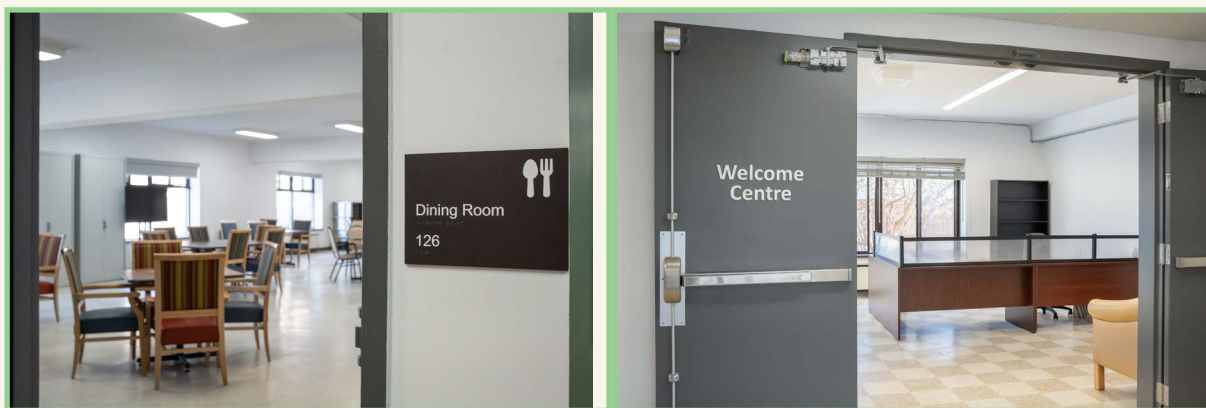

This site has updated security and IT systems, a 10-foot privacy fence, required furniture, policies that align with Durham Region's shelter standards, and appropriate staffing.

Security for the site is currently in place with levels adjusted based on use. The building has discreet access for people using the shelter. At the direction of Regional Council, street outreach services have been expanded. This means staff are available to support people experiencing homelessness and their well-being.

About 1635 Dundas Street East

The Region purchased 1635 Dundas Street East as part of the system of supports across Durham to support those experiencing or at risk of homelessness. The former Sunnycrest Nursing Home, now referred to as 1635 Dundas, can support people who are currently living outdoors in Whitby.
